

AUDYSSEY

Audio Dock

South of Market Edition

Un.Dock

Stream music wirelessly from your iPhone™ or iPod™ while you text and email. And when your battery dies from checking Facebook™, dock it to charge or sync with iTunes™.

Live+Work

Switch from a playlist to a conference call using the built-in speakerphone. You can even connect your laptop to watch videos or talk using Skype™.

Listen Up

It just sounds better. That's because our award-winning technologies are inside, giving deep bass and clarity at any volume. Plus, you can download the app to create custom EQs.

Inspired by San Francisco's South of Market District

Nestled between downtown San Francisco and the Mission District, South of Market (SoMa) is a neighborhood of artist lofts and night clubs, restaurants and start-ups. This blend of old warehouses, culture and technology make SoMa a unique and diverse urban landscape. Its eclectic blend of energy and history serves as the inspiration for the innovative audio technology and iconic design of the Audyssey Audio Dock, South of Market Edition.

Inside

Audyssey Dynamic Voice

Uses microphone array processing to reduce background noise and echo cancellation to improve the sound quality of phone calls.

Audyssey EQ

Provides accurate musical balance, vocals and soundstage using MultiEQ, our award-winning equalization technology.

Audyssey Dynamic EQ

Continuously monitors your content to make vocals intelligible and background detail clear at low volumes.

Audyssey BassXT

Extends the bass response of small speakers to reproduce the lowest frequencies.

Audyssey Dynamic Volume

Automatically controls the volume level so that no content gets too loud or too soft.
